FOR BIGGER AND BETTER DAFFODILS . . .

Seven or nine bulbs, or even more, of the same variety planted in groups are more effective than bulbs planted in a straight line or a row. The earlier Daffodils and Narcissi are planted, the better root system they develop, which results in bigger and better bloom. Bulb food applied at time of planting produces still better results. Plant bulbs 6 inches deep and about 6 inches apart.

If you do not find any particular variety of Daffodil you are in need of on these pages, kindly let us know. If not in stock, we can procure and supply it at regular prices. Order early to be sure of the best.

Lily-Flowered TULIPS

Lily-flowered Tulips bloom at the same time as the Cottage Tulips. Their distinct lily-like flowers make them ideal for cutting and for arrangements. They are most effective when planted in groups in the border. We consider White Triumphator the best of this group.

New Variety—Lily-Flowered Tulip
RED SHINE. 26 in. (Not illustrated)
Without doubt the finest red in this group. Long lasting and superb as a cut flower. This variety made an outstanding show at the Montgomery Pinetum last spring. 10 for \$1.50; \$14.00 per 100.

WHITE TRIUMPHATOR. 26 in. (top)
